April in 2021 was unusually dry with only 5 rain events and a total of only 1.45".

This April had 8 rain events and a total of 3.38". Temperatures overall were below average, and we had more days with high wind that I can ever remember. The weather extremes led to 2 unplayable days and 8 days total that were impacted by weather.

Demo Days – Friday June 3rd (Taylor Made & Ping) and Friday June 10th (Titleist and Callaway)

Golf Course Updates

Toqua

- New fan infrastructure has been installed on holes #2, #5, #6 and #13
- Fans will start going out onto the course this week as were waiting until after the TGA 4-ball.
- New tee on hole #1 is completed and will open in the next couple of weeks.
- Putting surfaces are as good as they have ever been so primary focus will be on growing in weak fairway areas.
- First Impression – clubgrounds have become a real showplace this spring.

Tanasi

- New yellow tee on #10 and renovated-expanded green tee will be sodded this week
- Next tee project will be building a new yellow tee by the cartpath on #16
- Drainage work is ongoing which includes raising-leveling existing catch basins
- Fans will be going out later this month
- First Impression – bathroom columns were redone, and numerous clubhouse grounds improvements are ongoing
- Cart traffic – increased wear and tear from record rounds is showing including affecting the severity of spring dead spot. These areas will all receive additional cultural measures and fertilizer inputs to expedite the healing process.
- Putting surfaces – some drill and fill holes remain but have fully transitioned from grow-in recovery to playability.

Kahite

- Back 9 Bunker Renovation is sole project focus for the team in addition to day-to-day operations.
- #18 should be finalized on Tuesday and plan is to grass on Friday.
- #11 is marked so team will move their next and pretty much stay in order from that point forward.

Meeting adjourned at 4:24 PM

Next meeting is scheduled for June 13 at 3:30

Thanks,

Larry Fox, Secretary
