March 2013 Financial Report

BY PARKER OWEN, *Director of Finance*

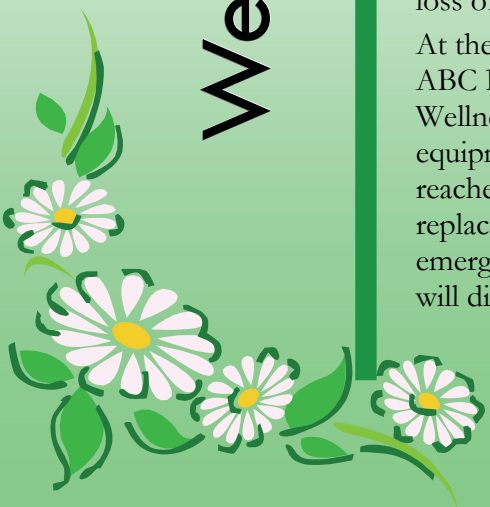

Through the end of March operations, we had unfavorable variances to Budget for Revenues, off-set by favorable variances to Budget for Expenses. Also, including the capital projects considered at the April Board meeting, we are more than 60% through our 2013 Capital Plan and are coming in about \$42,000 under Budget for all capital projects approved to date. Our approved 2013 Budget projected positive Net Cash Flows of \$15,000. Considering our favorable Net Income variances to Budget and our favorable Capital Project variances to date, we are currently on pace to generate about \$240,000 Positive Net Cash Flow for the Year 2013. Of course these projections will change as we go through the year and encounter both positive and negative influences. Still, combining all of these factors, we are off to a good start toward achieving our goal of Cash Self-Sufficiency for 2013.

Following are some key Financial Measures through March YTD.

| All numbers in \$1,000s. | <u>Actual</u> | <u>Budget</u> | <u>Variance</u> |
|--------------------------|---------------|---------------|-----------------|
| Revenues | \$3,223 | \$3,307 | (\$ 84) |
| Expenses | <u>3,350</u> | <u>3,620</u> | <u>270</u> |
| Net Income | (\$127) | (\$313) | \$186 |

Our Total Revenue Year to Date is \$84,000 below Budget. Shortfalls in Golf, Boat Slip Rentals, RV Space Rentals, and Utility Installations were partially offset by favorable Water/Sewer Revenue and our Realtors participation in the Village Marketing Program. On the expense side, we had favorable variances totaling \$270,000, mostly in Maintenance and Operating Supplies, although some of these are timing differences and will be offset in coming months. We estimate that timing differences aside, we had favorable expense control during the first two months of the year. Through the end of March our Year-to-Date Net Income is a loss of \$127,000 compared with a budgeted loss of \$313,000, for a favorable variance to Budget of \$186,000.

At their March meeting, your Board of Directors approved capital projects to pave the ABC Boat Docks Parking Lot, to commission an engineering and design study for a Wellness Center Complex Master Site Plan, and to purchase both new and used equipment to replace Golf Maintenance Equipment that is either coming off-lease, or has reached the end of its useful life. At the April meeting, they considered and approved replacement of the main administrative copier equipment and installation of an emergency water hookup for the irrigation system at The Links at Kahite. Next month I will discuss changes in our approach for long term management of our Capital Plan.

Everybody wins."

The event is held at the West Town Mall:

Volunteer Opportunities

Event Organizers Needed for Library

The Public Library at Tellico Village needs people to serve as a force multiplier for the board and standing committees. At present, their need is for individuals who would like an opportunity to help plan and organize special events. Working with the director of marketing, these individuals would be challenged to think outside the box and recommend ways and means to increase the library's presence and bring in much needed funds.

Are you an eventer? Do you like the challenge of taking an idea and bringing it to fruition – especially if you don't have to pay for it? The library also wishes to develop a cadre of people willing to help set up the conference room and courtyard for special events and handle the AV equipment. These are not time-commitment-driven jobs but

Dam Bridge Update: Lane Closure

Editor's Note: Your POA staff encourages you to use extreme caution because the new traffic patterns are tricky to maneuver and there is heavy congestion. Consider using the south entrance of the Village to avoid any mishaps and delays.

According to Don Miller: "... the Southbound Lane of US 321 at the Dam will be closed from 8 p.m. Friday, April 19, until noon Monday, April 22, for TVA to do some core drilling. Previously it had been indicated that this was going to happen this past weekend."

The contractor continues to work in all areas. They are continuing to haul borrow material to all fill areas and install storm drain pipe when the required grades are met. Construction of bent #2, phase 1, on the railroad bridge is complete and work on bent #1 will begin immediately. The utility contractor is continuing work on the water and sewer installation. They have completed two water line crossings and one sewer line crossing and have one sewer line crossing remaining on SR 73/Highway 321. For more information, go to www.tdot.state.tn.us/sr73/.

In early June, Elm Hill Road will need to be closed to through-traffic for approximately 6 to 8 weeks in order complete fills at the intersection of SR73.
