What Is That Round Black Lid in My Yard?

By Jeff Gagley, *Director of Public Works*

The title of this article is based on a question that Public Works has been asked on many occasions. For those of you who may not know what that round plastic thing is in your yard, let me take a few moments to describe it and its contents.

The lid covers your 1,000-gallon pumped effluent tank that holds waste from your home. Inside the tank is a 24-inch vault that rests in the center of the tank. All the waste flows from your home into the tank around this vault.

Located in the vault is a two-horsepower grinder pump and a float system. The float system turns the pump off and on and also signals the alarm system on your control panel when fluid levels are too high. When the waste level gets to a set point, the float activates the pump to start. The pump then moves the waste into the main sewer lines along the streets and into the intermittent sewer lift station.

These lift stations are located throughout the Village. They pump all fluids to the main sewer lift station located at the corner of Sequoyah Road and Highway 444. At that point it is pumped to the Loudon Sewer Treatment Plant for final processing. In Kahite it is pumped to the Niles Ferry Treatment plant for final processing.

Along with the 1,000-gallon tank is a gray control panel mounted to your home near the tank with a red warning light. When there is a problem inside the tank, the floats will trigger the audible alarm inside the panel to activate and the red light to start flashing on your panel. Public Works does not want residents to be alarmed when this happens.

You simply go to the panel and press the “silence” button, and then call Public Works at 865-458-4522. The staff is on call 24 hours a day, 7 days a week, 365 days a year, with trained technicians who will arrive at your home within a short time to assess the problem and make the proper repairs.

If you have any questions about the operation of the pump effluent system on your lot, feel free to contact any of Public Works’ trained staff.

The Public Works staff recommends if you are going to be out of town for an extended period of time, that you may want to pour a box of Rid-X down a drain in your home before you leave. This will keep your tank active while you are gone and prevent major problems in the future.

Dam Bridge Update

According to Nancy Campbell, HOA Neighborhood Watch Coordinator:

“I have been told that the Loudon County Sheriff’s Department had a progress meeting with TDOT recently. The Sheriff’s Department is going to strictly enforce the speed limit in the new bridge work zone as well as nearby Tellico Parkway, Highway 444.

“Remember, fines are **doubled** in a work zone. Be careful out there.”

Community Church to Hold 25th Anniversary Celebration March 24

Submitted by Beverly Cottle and Renee Anderson

On Palm Sunday, March 24, a grand community-wide celebration is planned to commemorate the 25th anniversary of the Community Church at Tellico Village, 130 Chota Center. At 10:15 a.m. in the sanctuary, all are invited to participate in a lively interdenominational service comprised of thanksgiving and special music, featuring a number of surprises, honored guests and founding members. The celebration will continue with a reception in the Christian Life Center following the service.

As a song in the hymnal reads, "It only takes a spark to get a fire going," and that is exactly how the church began.

(Continued on page 3)

(Continued from page 2)

In late 1987, the idea of forming a community church in fledgling Tellico Village was the spark in the hearts and minds of seven or eight people, who were led by Dr. Robert Puckett, then pastor of Norris Religious Fellowship in Norris, Tennessee. The church was launched on March 13, 1988, when a handful of residents gathered at the Visitors Center and voted to establish a church. The first church service was held on Palm Sunday, March 27, at the new home of Art and Iris Spurrier, with 11 people attending.

Dr. Puckett, now retired, convinced the late Pastor Emeritus Dr. Carl Burke to take leadership of the new church, which met in private homes, the Rec Center and the Yacht Club, until a church building could be established in 1994. Always, the fellowship's mission has been rooted in Christ-like community outreach.

Today, that mission has mushroomed right along with the membership. More than 1,400 members shepherded by Senior Pastor Martin C. Singley, III and his staff including Dr. R. Tim Meadows, the Rev. Rhonda Blevins, and Music Minister Dr. John Orr, now worship together in a new sanctuary supporting the growing number of members and guests. The church is noted for its generous and spirited involvement in a number of ministries across county lines of East Tennessee and beyond, including Habitat for Humanity, Knoxville Area Rescue Ministries, The Child Advocacy Center, Good Samaritan Center of Loudon County, area hospital ministries, and Iva's Place, among many others. The church also sponsors a college scholarship program, which aids deserving area high school graduates in achieving their educational and professional goals.

Tellico Village Community Church is an interdenominational Christian church affiliated with the International Council of Community Churches. It serves the people of Tellico Village, Rarity Bay, Kahite, Loudon City, Lenoir City, Loudon County, Monroe County and the East Tennessee region. For more information, please contact the church office at (865) 458-1516.

The Cornel Zimmer pipe organ of the Community Church at Tellico Village promises to swell with music played by accomplished church organist Fred Pogue. The organ's pipework is from a civil war era (1862) Henry Erban organ.
