Acts of Unexpected Kindness

One of the great things about Tellico Village is the almost universal kindness and generosity of the residents.

Recently while cycling down the end of Ritchie Road, I had a flat at the intersection with Old Vonore Road. As I started to repair it, 3 different vehicles stopped to offer help. The third was a pickup truck (a TV resident) that ferried me home. The helpfulness to us bikers is appreciated even though I know we are aggravating to those motorists in a hurry.

Some Other Stuff You Need to Know...

Library update

A recent high volume rain event occurred in our community and impacted The Public Library at Tellico Village. Specifically, our cistern tank and piping was overloaded and rain accumulated in the back courtyard to a depth that allowed seepage into the building, principally under an exterior door by the Librarian's office.

While there was no standing water anywhere, carpets were wet in portions of the offices, hallway, conference room, children's area and computer lab. A service was immediately called in to dry out the carpets and, for safety reasons the Library was closed for three days. Work is now complete.

To remedy this situation so that it does not happen again, our building contractor, Wilson Construction, will replace the cistern tank with a larger one at no cost to the Library. This work will begin later this month and conclude in July. At the same time some of the cistern piping will be enlarged to provide better drainage. Until these corrections can be made we will step up our vigilance of possible extreme rain events and react accordingly.

Hike Gregory Bald June 14

The Tellico Village Hiking Club will depart 8 a.m. Friday, June 14, from Chota Center to hike:

- **Gregory Bald**
- Distance: 9 miles round trip
- Elevation Gain: 2300 feet
- Rating: Strenuous
- Driving Time: Approx. 1.5 hours
- Leader: John Winn, 865-675-6272 or john.winn@gmail.com

This out and back hike turns around at one of the prettiest destinations in the park, Gregory Bald. Gregory Bald is famous for its flame azaleas, large shrubs with beautiful orange-red clusters of flowers. We hope the hike coincides with maximum bloom, when the Bald is alive with flame.

The trail to the Bald begins in the back of Cades Cove (we must drive the loop). It climbs steadily and unrelievedly uphill, with the last quarter mile being as steep as any trail in the park. The Bald is on the main spine of the Smokies, and you can feel the change in climate, so even on a warm day, bring a light jacket. You will need it after the exertion of the climb. As with any spectacular reward, this one takes effort. On the way down you can congratulate yourself for seeing a special part of the park that only a hardy few can experience.
