General Manager's Report for December

By Winston Blazer, General Manager

Wrapping Up a Good Year for the POA

This is the final installment of four articles highlighting the excellent accomplishments of the various departments of the Property Owners Association. This final piece covers a lot of the good things accomplished by the administrative departments of the POA.

Winston Blazer

There is one project of which I am very proud that we managed to get done this year. A couple of years ago we began the journey to renegotiate the lease with Tellico Reservoir Development Agency, and through a lot of hard work and perseverance we found success. This new agreement will end the lease almost 40 years earlier than the original agreement and save millions of dollars for the community.

What does this mean for Tellico Village? First, the new terms of the agreement (\$400,000 flat rate for 29 years) saves us over \$4 million over the life of the Lease amendment simply by removing the annual payment escalator that was in the original agreement. The total savings is nearly \$37 million over the life of the lease.

Secondly, any uncertainties at the end of the original 99-year lease are now gone. At the end of the new lease (in 29 years), all the property will belong to the POA. This one project makes 2016 an outstanding year.

Another initiative is not so visible to Villagers, but it is extremely important to the operations of the POA. 2016 is the year we created a sea change in our culture when it comes to safety. All the department managers got on board and made sure the employees were on board. We have conducted safety reviews, held training classes, implemented new response procedures, and brought in guest presenters to ensure all employees embrace a proactive safety culture.

The following list shows other significant initiatives and accomplishments by the good folks who work in the administrative areas of the POA:

- Our Continuous Improvement program remains a great way to contribute to the bottom line. This year's contribution by the employees is \$150,000. Those are real dollars saved by employees in finding ways to do things better. That money will be contributed to the Amenity Reserve Fund to help pay for future amenities.
- Our Information Technology Department did a good thing this year by working with TDS on improving the internet speed for the Kahite neighborhood. Kahite does not enjoy cable television and internet and for years has managed by with very

slow speeds through TDS. Now with the new agreement, residents of the Kahite neighborhood will enjoy almost the same level of service found in the Loudon County portion of Tellico Village.

- Our communications staff added another tool this year by venturing into the world of Twitter, and you can find us @TellicoVillage. The Public Relations Manager chat sessions are proving very popular each month, and Trippin' Thru Tellico seems to be a hit on Tellico Village Broadcasting.
- The Finance and Accounting staff always do a great job. This year they brought in a difficult budget and five-year plan. It was a challenge all the way through the process. They teamed with IT to manage another web-based Board election with no problems. Our Audit this year was virtually perfect and reflects excellent financial controls across all departments. Finally, we managed to dispose of some surplus property and recoup a little cash in the process.
- Finally, in the marketing arena, Cheeyo Place Park was opened to rave reviews. This new concept will be extended into other areas of the community where we could use a little freshening up.

I'm very proud of the employees with have with the POA. This team does a great job of making Tellico Village a first-class community. They are a big reason why it's better at Tellico Village.

Keep voting

To Villagers who have taken the time to go to RealEstateScorecard.com and vote for Tellico Village, thank you. I understand we are doing very well in the voting. Voting continues through Jan. 10. Last year, the website declared the winners in the various Bliss Award categories in late January.

Again, thank you to the hundreds of Villagers who have voted. Thank you for telling them, "It's Better at Tellico Village." For more information or to vote, go to RealEstateScorecard.com and click on the Bliss Award voting icon.

POA offices closed

The POA Administrative offices will be closed for New Year's on Monday, Jan. 2. We will be back in business at 8 a.m. on Tuesday, Jan. 3.

Happy holidays

Finally, I want to take this opportunity to wish everyone a happy and safe New Year. Celebrate New Year's, and keep it safe. See you next year.

Yacht Club Restrooms Undergo Renovation

As part of the TVPOA's Repair, Replace, Renovate program, the restrooms at the Yacht Club are currently being refurbished. During the course of the three-week project, there will always be at least one set of restrooms open and available for patrons. Thank you for your patience.

Bishop Construction starting Chatuga Point homes

This is the second of three articles announcing new Tellico Village housing initiatives being introduced by the TVPOA and local builders. The goal of each project is to continue to reduce the inventory of non-revenue generating TVPOA owned lots similar to the recently completed Cheeyo Place Park.

By Joe Bogardus

The first of possibly ten new 2017 homes in the Chatuga Point neighborhood is being built by Bishop Construction on Utsesti Trace. Bishop and the Tellico Village Property Owners Association (TVPOA) are launching this new development following the recent success of the Cheeyo Place Park test program.

The new homes will be concentrated along Utsesti Way and Utsesti Trace. One property has already been sold with two more under contract. Bishop's goal is to complete ten homes in the area by year end 2017. Currently, there are 39 non-revenue generating TVPOA lots located in Chatuga Point.

Four different patio home designs will be available offering, on average, about 1,600 square feet of living space. All will be single level with an option for a bonus room above the garage. Future owners will have the opportunity to upgrade their homes with tier-one hard wood, granite and tile. Base price of the homes will be in the \$240,000 to \$280,000 range.

Joe Bogardus

Andre Bishop, owner of Bishop Construction commented, "Demand for smaller homes has really accelerated in the past few years. Having built in the Village for years, partnering with the TVPOA to provide a patio home product seemed like a win-win for everyone involved."

The Chatuga Point initiative will be the second program announced by the TVPOA to reduce the inventory of non-revenue generating lots. Recently, Mashburn Homes and the TVPOA launched a new building project in Mialaquo Coves. Both these programs have come about after the successful conclusion of the Cheeyo Place Park test program.

Cheeyo Place Park was launched in December 2014, and in two years, 12 of the TVPOA owned lots have homes on them. These previously non-revenue-generating lots will now contribute in excess of \$18,000 of yearly assessment income in 2017 and beyond. Four lots owned by individuals and one TVPOA lot, presently remain undeveloped. There was already one existing home in the Cheeyo Place neighborhood when the test program began. Revenue from the Cheeyo Place lot sales totaled \$16,710 (net proceeds) to the TVPOA. Unlike Cheeyo Place Park, there will be no TVPOA owned house in the Chatuga Point neighborhood.

Overseeing the projects is Beth Kuberka, TVPOA marketing manager. Summarizing the situation, she said, "In 2016, we've hosted more than 2,000 visitors to our Welcome Center. Many are in the early stages of determining where they want to live, others are looking for an existing home and still others want a smaller, new home. With these Mashburn and Bishop ventures, we can accommodate potential Villagers looking for a brand new downsized home."

"Cheeyo Place Park demonstrated there is a need and broad based interest for this type of product. As the community's brand awareness continues to grow, there will be ongoing demand for all types of housing in the Village," Kuberka concluded.

Joe Bogardus is a retired marketing communications professional and Tellico Village resident who has acted as an unpaid volunteer consultant to the TVPOA in the re-launch of the Tellico Village brand and the accompanying marketing/communications program. Bogardus currently is chairman of the Loudon County Visitors Bureau Board of Directors.

Getting the most from your Directory

Village residents receive a free Directory every winter and summer courtesy of Loudon County Publishers (the folks who are responsible for the *News-Herald* and *The Connection*). The POA does not share property owner information.

The POA office has directories for purchase in the POA office for those wishing to have an extra copy. The cost is \$3.30 each.

- If you are not listed in the Directory and wish to be, you can fill out the card between pages 42 and 43, or you can send an email to Amanda Kimbrell at Amanda.Kimbrell@news-herald.net.
- If you need to change any of your information, such as a new email address, send that information to Amanda, too.

Some of the frequent questions we are asked at the POA is information found in the Directory:

- Village businesses' phone numbers: All Village businesses are listed on page 24 of the Directory with location and phone numbers.
- Club listings can be found on pages 17 and 18 listed as Activities Directory.
 - We are frequently asked about medical equipment to borrow, etc. Under the Activities Directory, look for EQUIPMENT. (I suggest highlighting that entry so you can find it easily if you ever need it.)

I also recommend tabbing the businesses and clubs for easy access. Plus, if you recycle your old Directory when the new one arrives by putting the old one in your car, it will already be tabbed.

Another thing I like to do is use a highlighter on any phone number or address I look up. It saves time in the future should I ever need that information again.
