## POA Board Examines YC Dance Floor

### By TVPOA BOARD OF DIRECTORS

At the February POA Board meeting, Janet Trimbath, HOA/New Villager liaison, asked the Board to enlarge the dance floor on the lower level of the Yacht Club as the current space is too small to accommodate the large number of people wishing to dance. She also requested that the wood trim surrounding the dance floor be removed as many dancers are tripping when they get too close to the edge.

On Thursday of last week, Jeff Gagley, Director of Public Works, and Claire Frazer, Board member, met at the Yacht Club to address Janet Trimbath's requests. There are three reasons why the dance floor cannot be enlarged:

1. Safety—Number one priority
2. Cost—Consideration, budget constraints
3. Space—Requirements to support

Safety is the primary reason. Whether a person is coming down the stairs or entering from the patio through the rear doors, there is the potential possibility to slip and fall. Everyone is careful when they are going down stairs. The same does not hold true when stepping onto a flat, hard surface.

Cost is a major consideration when changing/upgrading a surface. In the case of the dance floor, it is actually two floors on top of one another surrounded by concrete. To enlarge the current floor would be very expensive.

Space to accommodate tables, chairs, DJ, bands and sound equipment would be severely limited. The footprint of the room does not allow for a larger floor and space for tables, etc. The wood trim around the dance floor can be corrected. New carpet tiles will be installed late March/early April. At that time, the current wood trim will be removed as part of the new installation of carpet tiles. A less intrusive and lower trim will be placed between the floor and the carpet. This trim is necessary both from a safety standpoint and wearability at the edge of the floor and carpet.

Thanks to Janet for bringing her request to the POA Board. We make every effort to listen to our property owners.
