## FREQUENTLY ASKED QUESTIONS #2

By Fred Toettcher, Tellico Village Marketing Team Member

**Editor's Note:** Understanding Tellico Village real estate market performance and the investment required to maximize this performance is extremely important to all property owners. The following is the second in a series of three articles that will answer questions most frequently asked of the Tellico Village marketing team.

### Question #1: What's happening with the sale of POA Lots?

From January – July 2019, 71 POA lots were sold (or are pending). These lots represent annual assessment income of \$113,231 at the current \$132.90/month rate. Additional POA lots will be sold during the balance of the year.

In late 2014, Beth Kuberka, POA Marketing Communications Director, conceived and implemented a joint development program between the POA and local builders. This program added value to these mostly small, internal POA lots, capitalizing on increased demand created by the POA marketing program. Expansion of this initiative has resulted in sales of 227 POA lots since 2015, a dramatic increase from the 7 and 8 lots sold during 2013 and 2014. Further development opportunities exist, with the POA currently controlling 773 non-revenue generating lots.

### Question #2: Is Tellico Village growing too fast?

Tellico Village's population is currently growing at a rate of about 300 people per year. In a community of more than 8,000 people, this is manageable growth that can be accommodated by the Village's current and planned infrastructure (including roads, water and sewage) and amenities.

At the beginning of 2019, Tellico Village's residences totaled 4,344. Since 2012, the Village has grown 16%, an annual average of 2.6%. In 2017 and 2018, the annual growth rates were 3.7% and 3.8%, respectively, and this annual rate of growth has continued through the first seven months of 2019.

Even though it seems that there are many new faces in the Village, most of the newest residents have bought existing homes from aging Villagers. These younger residents represent new energy, new ideas, new programs, new vitality, but not population growth. Joe Bogardus, a fellow marketing team member, has written a great article entitled ["Tellico Village: What Is Growth?"](#) that explores this issue in some depth.

In summary, Tellico Village's current population growth is healthy, manageable and consistent with that of a vibrant and viable community.

### Question #3: What does the marketing program cost me?

This year, the POA marketing program will cost Tellico Village property owners nothing. On an "all-in" basis outlined below, the program generated positive POA net revenue totaling \$95,316 during the first half 2019. This revenue stream is projected to increase during the balance of the year.

For the last several years, the Tellico Village Board of Directors has requested an 'all-in' financial assessment of total marketing revenue, costs and expenses on a quarterly basis.

- Total Marketing Revenue – \$356,722. Includes direct revenue from realtors and builders, website/magazine advertising fees, POA lot revenue, and building permit fee revenue from POA lot and program sales. During the first half 2019, "all-in" marketing revenue totaled \$356,722.
- Total Marketing Costs and Expenses – \$261,406. Includes advertising and website expenses, agency fees, marketing personnel salaries and benefits, and Welcome Center costs including electricity, building maintenance, interest and depreciation. During the first half 2019, "all-in" marketing costs and expenses totaled \$261,406.

Resultant positive POA net marketing revenue of \$95,316 is in addition to property owner return in the form of increased property values. As reported in the [first article](#) in this FAQ series, Tellico Village property values have increased 15.3% during the last 30 months. During this period, the average priced home in Tellico Village has appreciated nearly \$55,000.

The POA marketing program has evolved into a rare quadruple-win proposition. The POA wins through incremental net revenue, current property owners win through increased home equity, past property owners won by selling their homes on a timely bases and at a fair price, and new residents won by discovering and subsequently relocating to this incredible community.

## HIGHWAY 444 CONSTRUCTION

TDOT began work on establishing an acceleration lane southbound on 444/Tellico Parkway at the 321 intersection on Monday, September 9th. If you're coming from Lenoir City on 321 and turn right on 444/Tellico Parkway, there will be a new merge lane constructed onto 444/Tellico Parkway. This merge lane will replace the yield sign at the bottom of the ramp.

Please be aware of workers and equipment in this area. There may be temporary delays while this construction is taking place.

## TV LIONS 15TH ANNUAL OKTOBERFEST

On October 7th, the TV Lions will be holding their 15th annual Oktoberfest at the Yacht Club. At a Lions Club meeting early in 2004, Mike Kittl, a die-hard Austrian, came up with the idea of having this uniquely German event in Tellico Village. From its first iteration, it has been a huge success and a prime fundraiser.

In addition to great German food—bratwurst, sauerkraut, German potato salad, beans and condiments, and of course, plenty of German beer—the Oktoberfest provides a great social evening where you can meet with friends and neighbors, dance or sing along to great music provided by DJ Steve Bartoleme. Food and beverage service will begin at 4 p.m. and continues until 7 p.m.

Due to the Yacht Club capacity, tickets are limited. If you want to join the crowd, get your tickets early. Priced at \$14/person, they are available from any Lion, Sloan's Home Center, United Community Bank and Village Salon.

Parking at Tugaloo Pavilion and a free shuttle will be available.

Events such as this provide funds to the Lions club to support a myriad of activities, including donations to numerous service organizations. For example, funds raised from this and other events help support our participation in a Habitat for Humanity house build. This is a joint effort with other Tellico Village clubs (Kiwanis, Rotary Club, and Women's Club) and the Loudon Lions Club.

A project such as this and many others is only possible thanks to the fantastic support from the residents of Tellico Village.

## CONSTRUCTION UPDATE: TOQUA CLUBHOUSE

There is a lot of work taking place this week! The kitchen equipment has arrived and is being wired. Crews are working on trim all over, laying tile in the restrooms, and continuing to form for the last concrete pour.

The photos below show the newly installed kitchen equipment and patio ceiling fans.

Stay up to date with the ongoing construction! Click [here](#) for the progress at Toqua Clubhouse.

## PET OF THE WEEK:

Meet Maisy, Zena, and Zasu. Maisy is a beautiful brown tabby who is just under five years old. She is very social, lovable, and loves human attention. When it comes to personality traits, tabbies are considered friendly, happy-go-lucky, intelligent, sassy, very affectionate, and wonderful companions. Zena and her son Zasu are classic black and white short hairs. Zena is about 1.5 years old and very friendly and outgoing. She enjoys being stroked and gentle chin scratches. Zasu is about 4 months old. He is a typical kitten; momentarily shy with new people and tries to convince you that he's very aloof. Start petting him and you realize that it's all an act. He likes rubs, pets and fuzzy toys. Black and white cats seem to be viewed as having the best of both worlds. They combine the alluring mystery of black cats, combined with the delicate rarity of white breeds.

Grooming your pet is a huge part of taking care of your pet. Most animals tend to like the extra attention it gives them and can be taught to love it at any age. Regularly grooming your pet will help maintain a healthy relationship with them but will also give you a reason to check in your pet to see if there are any problems that need medical attention. Brushing your pet's hair should happen several times a week, if not daily. Brushing removes the dead hair and tangles. You should periodically check your animal's ears. If they are clean and free of debris, then give your pet a nice ear rub. A gentle massage is going to give your pet a good association to your touch. If the ears are dirty, smell bad, or look sore, make an appointment with your veterinarian.

The Monroe County Animal Shelter is located at 170 Kefauver Lane in Madisonville (behind Wal-Mart) and is open Tuesday – Friday from 11 – 4:30 and Saturdays from 11 – 2. The shelter is closed to the public on Sunday and Monday. Call 423-442-1015 and check out all available pets on our website at [www.monroecountyfriendsofanimals.org](http://www.monroecountyfriendsofanimals.org). TN Monroe County Animal Shelter is the official Facebook page for the Monroe County Animal Shelter.

All animals adopted are spayed or neutered, wormed, have age appropriate vaccinations and testing, and are microchipped with registration. Cats are litter box trained. \$50 adoption fee over 1 year old, \$60 under 1 year old.
