Tellico Village has grown quickly in the last few years, bringing challenges regarding the sufficiency of our amenities as well as our infrastructure. Looking forward, we need to focus on intelligently managing our growth.

My priorities for the Village include:

- *Managed Growth.*
  - Add new amenities based on demand.
  - Make necessary capacity improvements to existing amenities.
  - Ensure utilities deliver high reliability and meet capacity requirements.
- *Aesthetics and Environment.* Maintain the natural beauty around us.
- *Communications and Transparency.* Improved listening and informing by the POA.
